GT-7041-1 低溫沖擊器 Cold Impact Tester

ISO 6022-1、DIN VDE 0620-1

本器為低溫繞卷試驗機之選擇配備，使用時與試件置於低溫箱內，經冷卻後，以規定重量之砝碼，有100mm之高度落下，撞擊試件，然後觀察隔離線內外緣及護套之受損情況。

This tester is an option for CORD WINDING CRACK TESTER, mode GT-7041. The test inspection can be executed by means of falling a stipulated hammer (ref. Operational manual) from 100mm height onto the test specimen which laid flat on the steel block and then checking whether there are damages on the insulation cover, sheaths and protective coverings.

衝擊高度 Impact Height	100mm
砝碼 Hammer(optional)	100,200,300,400,500,600,750,1000,1250,1500g
體積 Dimension(W×D×H)	40x25x45 cm
重量 Weight	23kg
