GT-SLH 鞋內長度測量儀 Internal Shoe Size Gauge

本產品用於測試各種運動及休閒鞋之鞋內長度。
鞋內長度:是指從鞋跟到鞋頭最頂端的內長度。

The GT-SLH, equipped with a touchscreen control panel, is specifically designed for measuring the internal length of athletic and casual shoes. Its versatile functionality allows for the addition of an optional measuring jig (sold separately) to accommodate both adult and youth sizes, ensuring comprehensive coverage across various shoe dimensions.

※Internal shoe length: Distance between the heel and the end of the toe box inside the shoe.
