GT-7066-D 落錘衝擊試驗機 Drop Impact Tester

適用於曲棍球桿等長條形試件的抗衝擊程度試驗。利用電磁鐵控制衝擊頭之起落，並以一定的高度衝擊長條形試件後，而檢查長條形試件損壞情況。

The GT-7066-D is specifically designed to assess the impact resistance of long-shaped specimens, such as hockey sticks. This tester uses an electromagnet-controlled striker to perform impact tests on long-shaped specimens at a specified drop height.

試件 Specimen	曲棍球桿等長條形試件 Long-shaped specimen (e.g., hockey stick)
落下方式 Drop method	電磁釋放 Electromagnetic release
衝錘重量 Striker mass	2347.6g±1% ; 2739.2g±1%
加重砝碼 Loading weight	1496.4g±1%
最大衝擊行程 Max. impact distance	1200 mm
體積 Dimensions (W×D×H)	110cm×50cm×220cm
基座高度 Base height	30cm
